UNION STOCKYARDS, INDIANAPOLIS,	

1.-Cattle-The receipts of cattle to-day were fairly liberal for this time in the week and show a good increase over last Monday and are nearly twice as many as a year ago. The conalguments consisted principally of butcher stock of fair to good quality. Reports from other places were not favorable to salesmen. But fortunately the class of cattle offered were just about the kind that are most desired the first of the week and, with a good demand from local packing houses, the trading was more active than usual at this time in the week, and sales for the most part were reported at steady prices compared with the close of last week. There was rather a slow request for steers that were heavier than required and such kinds were reported barely steady. But the good light butcher steers, as well as the cows and heifers, ers. \$1.75@4.50; canners, \$1.50@2.30; bulls \$1.75 82c flat. When the shorts wanted to cover there undoubtedly sold up to expectations. As usual (44; calves, \$3.25%7. at the beginning of the week there was very little inquiry for stockers and feeding cattle and there was not much business transacted in this line. Bulls were reported steady and the calf market was steady at last week's closing prices.

week, but the receipts included about 1,000 head billed direct to packers and probably 500 head billed through, so about 5,000 were on sale. The supply was large enough that all grades could packers, having things much their own way, were not inclined to be slow in making demands. On the other hand, salesmen were willing to make reasonable concessions, and a basis for operations was established early. In a general way the market was 10c lower than the close last week. On the decline there was a fairly active outlet for the good medium to heavy grades, but buyers were inclined to press the market

more for light hogs, and they did not se	ñ
promptly as others. Shippers finally bought	
eral loads, and altogether the demand was ;	1
equal to the supply. Sales ranged from \$4.	20
\$5.05, and the bulk of the supply sold at \$4.	型

Live Stock Notes.

The outlook for steers that had to hold around \$4.50 was slow yesterday. There was a reasonably active market for butcher steers at \$3.70@4 and other sales were reported as low as \$3.50.

+ + + There were scattering sales of selected heavy hogs as high as \$5.05 yesterday, but \$5 was vir tually the top for good heavy, and pretty well shaped kinds averaging from 210 to 250 pounds sold at \$4.90@4.95. Loads averaging around 190 pounds and upward that were more or less on

the mixed order sold from \$4.75 to \$4.85. 4 4 4 The actual receipts of stock last week indicate an increase of 224 hogs and a decrease of 43 cattle and 748 sheep compared with the preced ing week, and an increase of 12,183 hogs, 2,1

yesterday. Sheep and lambs were also steady. hog market was a big dime lower

+ + + It seems to be the general opinion that a fairly good cattle market can be expected this week, under normal conditions. But it must tled, and, in the natural course of events, this market may be affected. It does not appear that there will be enough butcher cattle to cause any and be prepared for any sudden changes,

COFFEE PRICES AT HIGHEST FIGURE IN SEVERAL YEARS.

NEW YORK, Feb. 1.-The highest prices of be well represented, and the quality generally the year and for several years were reached in was satisfactory. Reports from practically all the Coffee Exchange to-day. September futures other markets that have their bearing here were | sold at 91-10c, an advance of 2 cents a pound in unfavorable to salesmen. The market opened less than two months. Last summer coffee in with only a fair demand from shippers, and this city sold at about 31gc a pound and in less than eight months quotations have advanced over 5c a pound The market for coffee futures opened firm at an advance of 5c to 15c on continued support from the Cotton Exchange and Wall-street interests, in spite of rather heavy selling by longs and importers, and trading was very active. But there was a continued demand, some of which was believed to be for the account of the bull leader in the New Orleans cotton market, and prices ruled generally firm. A little after midday they sagged off about 5 points from the best, but rallied again and the market was finally steady at a net advance of 5 to 25 of 459,000 bags, including: February at 8.05c; March at 8.05@8.25c; July at 8.65@8.80c; September at 8.90@9.10c; Oc-tober at 9.05@9.10c; November at 9.10c and December at 9.20619.40c.

POULTRY PRICES GO HIGHER.

Cold Wenther Cuts Down Receipts-

Outlook in Produce Trade. The poultry market has begun to feel the effect of the cold weather. The prices of turkeys were advanced ic yesterday. The cold weather has had the same effect on poultry it is having on eggs-it is cutting down receipts. The demand is not falling off any. There are plenty of turkeys in the territory tributary to this market, but the country dealers are unable, on account of the cold weather and the blockading of the roads, to get much stuff in from the country. It is probable that the market here will be a little weaker as soon as the weather mod-In the produce trade the week begins with

prospects of increased business. Produce will move very rapidly as long as the cold weather lasts, but the general outlook is for a little more business than that of last week. Country business will not be restricted this week to the extent it was last week, if there is no more snow, and country deliveries will now be made more promptly.

Poultry and Other Produce.

(Prices paid by shippers.) Cheege-Wisconsin, 13c; New York full creams, 13c; Swiss, 16c; brick, 14c; limburger, 12c. Poultry-Tom turkeys, 13c; hens, 9c; cocks, 4c; Butter-Choice roll, 11c; Elgin creamery, 28c; Eggs-Firm at 28c

With the Grain Brokers; Present Market Conditions

A new record high price for this crop was ters weekly. In the next quarter, April 1 to d for No. 2 red wheat in the local market yesbid for No. 2 red wheat in the local market yesof prices for the leading grades of hogs during | market broke last week and the week before, little stronger yesterday and the local prices is what the millers complain of-that cash prices advance with the option market, but do not de-cline a proportionate amount when the option market breaks. The local mills last week ground about one-third as much flour as their capacity, and the immediate prospects do not indicate that they will grind any more so on. Advices as to milling conditions at other important points are of a considerably different tone now and at Minneapolis, for instance, a wire yesterday to a local broker said the millers were out of the wheat market. This indicates, of course, hat the flour business there is on the decrease. The Northwestern Miller, than which there is no more reliable milling journal, is extremely pessimistic concerning the outlook of the flour business, and also as to present conditions. Wheat prices and flour prices are clear out of ine-that is the main trouble.

sellers again yesterday. At the openig there wasn't any news on which it seemed the bulls considerable short selling. The visible, showwere few offerings.

J. W. Rush, London, writing upon the condition of the wheat market, says: "The wheat 15c lower; Western sheep \$4@4.60; native | war, however, it is tolerably certain that our

Circulation Based on United States Bonds on Jan. 30 Amounted to \$387,-657.731-Controller's Figures.

WASHINGTON, Feb. 1 .- The monthly circulation statement issued to-day by the controller of eattle market was fairly active at steady prices in cellar; 500 per ton extra, second floor or car- bank notes was \$426.857.627, an increase for the \$200.

great change in prices, but shippers should try terday-95c. At the present basis of flour prices tions will be made so that it is possible that this price for the soft winter wheat is entirely for the whole six months, from Jan. 1 to June 30, the total may somewhat exceed that of last year, which was 11,065,000 quarters, or about thing but unpromising. When the option wheat 450,000 quarters a week. An estimate of our market broke last week and the week before, probable supplies of foreign wheat and flour about 5c in the May delivery, local cash prices of supply, compared with the actual supplied during the next six months showing the sources declined about 1c. The option market was a in the same period last year, might be studied with interest. It will be understood, of course, that much depends upon our supplies from the for the cash article advanced a whole cent. This Atlantic ports of America, which I anticipate will be smaller than last year's, even as they have been since Aug. 1, since when Europe has received nearly 33 per cent. less than in the corresponding period last season. For the next six months I estimate, in fact, that we shall receive 20 per cent. less than we did last year.'

Says the Northwestern Miller: "Greatly as It dislikes to sound a warning note, the Northwestern Miller feels impelled to say to those who are contemplating the erection of new mills or the increase of their present plantsdon't. Building materials are expensive, labor has reached a point in its intolerable demands and exasperating conditions which simply makes the erection of new plants an unreasonable and permanent tax upon the business which is to Armour made it uncomfortable for the short operate them. The present crop is practically ellers again yesterday. At the opening there exhausted, the next one is an uncertain quantity, the export trade is unpromising or at least of doubtful permanency. Every condition is opcould work to any advantage and there was posed to a material increase in the milling capacity in the United States at the present time. Let the ambitious miller content himsel ing a nominally small decerase, was about what with his present outturn. Let him bide his was expected, and there was nothing in the time and await the course of events. Should 10c to 15c lower; good to prime steers, \$4.60 the price went up just the same—to 91c for the control of labor change and should the fiscal may and fooders and fooders and fooders and fooders and fooders and fooders are steered by the price went up just the same—to 91c for the litude of labor change and should the fiscal may and \$2 sc for the July delivery. The May policy of Britain be settled on a basis fair to American flour, new mills and increased capacities can easily be accomplished. Moderation and conservatism would be a good policy for the miller at the present time and those who extend their operations by an added investment, in the face of the very plain obstacles in the road to such a course, will probably live to regret their ill-advised enterprise. It seems very clear that this is a bad time in which to build by the situation in the far East. Apart from new mills or materially increase the capacity of the old ones. Millers can well afford to wait, NEW YORK, Feb. 1.-Beeves-Receipts, 3,464. relatively small, and that stocks will have to profit they may reasonably count upon with their present scale of capacity. A mill is easily constructed. It can be built and equipped if the just as was the case last year, when an aver- need exists in short order. Once constructed,

> year of \$42,884,081, and an increase for the month \$284,078. The circulation secured by lawful money aggregated \$39,199,896, a decrease for the year of

> \$4,185,711, and an increase for the month of The amount of bonds on deposit to secure circulating notes was \$390,231,600, and to secure public deposits \$169,441,940, of which \$30,004,170 were state and municipal bonds, Philippine certificates and Hawaiian bonds. The monthly statement of the director of the mint shows that the total coinage during January was \$7,518,780, as follows: Gold, \$2,765,000; silver, \$4,657,000; minor coins, \$96,780. In addition to the above 500,000 silver pieces were coined for the government of Venezuela.

PUBLIC DEBT SHOWS INCREASE.

ENORMOUS DEVELOPMENT

GROWTH OF UNITED STATES RAIL-WAYS THE WONDER OF THE AGE.

The Canadian Railway Commission-The Big Engines of the Panhandle Giving Satisfaction.

"No country in the world has shown so

marvelous a development in railways as the

United States; there may be divided opinions on matters of detail of management and appliances, but broadly speaking, the evolution of the railway system of the United States, prolific in marvelous things, is one of the wonders of the age. In this extraordinary development, three factors have been ever to the front-the wealth of railway literature, the ability and earnestness of the railway press, and the ever way men. The 'getting together,' the avenue, boy. mutual exchange of opinions, the opportunities to meet, the valuable papers which are read, discussed and printed, the active interest taken in the frequent gatherings, at which everything in any way connected with railway workings is reduced to a scientific discussion and is made the object of an interchange of views-all this has been widely appreciated and supported. Recognition of the fact that transportation is a science, has called into being a highly organized machinery for-what, by the way, is very appropriately the motto of the American Railway Association-'the development and solution of problems connected with railway management in the mutual interest of the railway companies of America.' The American Rallway Association, all readers of Transport of course know, but there are in the States a number of other railroad associations and clubs, deliberate and recommendatory, many of which are not, perhaps, so familiar to our readers, and it is proposed by Transport to describe shortly some of the more important of these. Transport yields to none in its hearty appreciation of the railway press of the United States, and we are glad to say that the summaries which we publish weekly of the contents of some of the principal papers have found much favor The circulation based on United States bonds in England; we hope that this record of gastro-enteritis. amounted to \$387,657.731, an increase for the year how railway men in that great country 'get Mary Pickett, 2021/2 South Noble street, fortytogether' and what they talk about will also be appreciated."

The Panhandle's New Engines. Following the statement from an operat-

ing man on the Northwestern system of the Pennsylvania lines west it is interesting to note that his expression regarding the superior value of the Mogul freight engine over the smaller type is borne out conclusively in tests just made by the Panhandle. A series of exhaustive tests has been made between the present standard cent. in operation. This means that when | from residence, at 2 o'clock from First M. increased cost, increased consumption of fuel and increased wear and tear are taken into consideration the increase in tonnage is still so large as to show an increase in net earnings of approximately 25 per cent. an engine is in the repair shop, time required in moving a given load and all othgine and the new "E-2" used in passenger service, it is held that tests are not even necessary; that the superiority of the newer

Canada's Board of Commissioners.
